CAREBRIDGE SAMPLE. NOT A REAL MEDICAL RECORD. FICTIONAL PATIENT.

St. Luke's Medical Center

Discharge summary

Patient: Maria Haddad

Discharged: October 28, 2026

Hospital: St. Luke's Medical Center

Attending: Dr. Samir Khoury

Diagnosis

Community-acquired pneumonia.

What this means, in plain words

You were treated for a lung infection. Your lungs are healing, but you need to finish your antibiotics, rest, and watch your breathing closely for the next two weeks.

Medications

1. Amoxicillin-Clavulanate 875 mg tablet by mouth twice daily at 08:00 and 20:00, with food, through November 4, 2026. Purpose: antibiotic to clear the lung infection.

2. Metoprolol 25 mg tablet by mouth once daily at 08:00. Purpose: keeps heart rate steady. No stop date is written. The note does not say whether this medicine is new or a long-term home medicine.

3. Paracetamol 500 mg by mouth as needed for fever or chest discomfort, up to 4 times a day. Maximum 3 g per day. Continue as needed.

4. Guaifenesin 10 ml syrup by mouth at 08:00, 14:00, and 20:00 through November 2, 2026. Purpose: loosens mucus.

Follow-up

- Tuesday, November 3, 2026 at 10:30. Primary care follow-up with Dr. Samir Khoury.
- Friday, November 6, 2026 at 09:00. Chest X-ray, Radiology, Floor 2.
- Thursday, November 12, 2026 at 14:15. Pulmonology review with Dr. Lena Abboud.

Home care, every day

- Check temperature morning and evening.
- Breathing exercises with the spirometer: 10 breaths, every 2 hours.
- Drink at least 8 glasses of water.
- Short walk around the home, 3 times.
- Sleep with head slightly raised.
- No smoking or second-hand smoke.

Return to the emergency department for

- Shortness of breath at rest
- Fever above 38.5 C after 3 days of antibiotics
- Chest pain or coughing blood
- Confusion or bluish lips

Addendum, medications

Pharmacy copy: Amoxicillin-Clavulanate 500 mg by mouth three times daily. This line does not match the 875 mg twice-daily order above.

The discharge note does not say when Maria may return to work or resume normal activity.
